

Entry Level Confined Space Rescue

This course will provide the learner with the required knowledge to perform an entry level confined space rescue. During this training program we will cover complex confined space entries that will require rescue term to enter the space to retrieve their co worker. Each participant will be required to pass a written test with a minimum 75%, be familiar with all equipment, rigging and related equipment and demonstrating their ability to perform in every duty position in a hands on mock entry.

Prerequisite: Valid Standard First Aid Course and CPR & Valid Fall Protection Training (CPO Approved if applicable)

Topics Covered

- Legislation (OH&S, NIOSH, CSA)
- How to identify a Confined Space
- Hazards Identification and Assessment
