

Fall Protection, Confined Space, & Rescue Solutions

# PPE COMPETENT INSPECTION COURSE

This 1-day course will cover all aspects of care, maintenance, and inspection of personal protective equipment. Participants will be taught practical techniques and procedures required to conduct thorough examinations, produce inspection reports, and specify corrective action when needed. Considerations for creating a management system for tracking life safety equipment will also be covered. The last portion of this course will include both a written and practical exam. Students who pass the exam will receive a PPE inspection – competent person certification.

## Workshop Features and Benefits:

- Competent Inspector Definition and Requirements
- Inspection Pass/Fail Criteria
  - Canadian Standards Association (CSA)
- Inspection Procedures
- Hands-On Practical Exercises

**Length of Training - 8hr (1 Day)**

**Our instructors will go anywhere in Ontario to train your team!!**
